C500

rinstrum
SMART WEIGHING SOLUTIONS

The C500 Series of industrial process controllers mark 25 years of Rinstrum's innovation in design excellence. The C500 Series is equipped with modern interfaces, increased accuracy, and user programmability. The C500 Series' embedded Linux operating system and Lua programmability make it adaptable to suit any application.

Key features:

- 14-Segment LED Display (C520)
- Compact ½ DIN standard housing
- Ethernet and rinLINK connectivity
- Programmable Function Keys
- Ability to add functionality using a range of optional modules
