

LED Remote Displays

rinstrum
SMART WEIGHING SOLUTIONS

Rinstrum **Remote displays** are designed for harsh industrial and agricultural applications typical of the weighing industry. Feedback from service technicians and scale installers helped guide the design process which resulted in reliable and service friendly remote displays.

The benefits of our LED Remote displays:

- Auto-select protocol
- Auto-baud configuration
- Auto-brightness control
- Waterproof field wireable connectors
- Simple mounting brackets and weather hood
- Light weight, easily installed by one man
