

4AA Battery Version

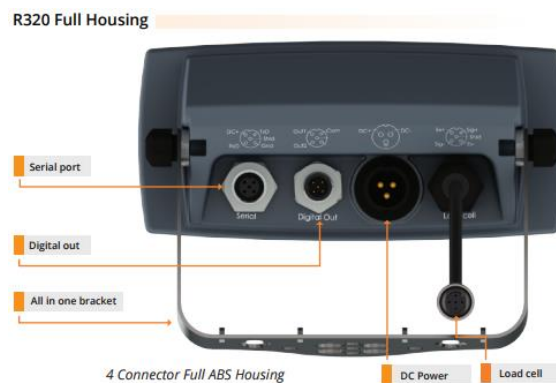

IP65 M12 Connector Version

New Full Housing R320 Indicators

Rinstrum's R320 ABS indicator is now available in a variety of full housing versions for simplified installation and purchasing. The IP65-rated version can be supplied with either 4 or 2 M12 connectors depending on the I/O and communications requirements. The 4 AA battery desk stand and plug pack version is ideal for basic indoor installations. Variants include:

- AA Battery Version => 4AA battery desk stand and plug pack
- 2 Connector version => using M12s and waterproof boot
- 4 Connector version=> includes communications and I/O M12 connections

Click through to the [Product Page](#) for an overview of the full housing variants and scroll down to the download section for the [new colour brochure](#) and [new data sheet](#).

The key features of the R320 include the following:

- Operates within a wide DC Range (7V to 24V), suiting several OEM applications.
- Approved for trade in Australia, Europe, and USA.
- rinLINK magnetically coupled link allowing easy access to set up or update the indicator.
