- [R420 K404 v2.30](#)
- [R420 K405 v2.30](#)
- [R420 K410 v2.75](#)
- [R420 K411 v2.70](#)
- [R420 K412 v2.70](#)
- [R420 K491 v2.67](#)

The updated manuals can be downloaded from the relevant product pages.

Rinstrum Launches the C510 Industrial Weight Controller

The C510 industrial weight controller is the newest offering in Rinstrum's state-of-the-art C500 Series.

Ideal for truck weighing and process control applications, the C510 is a direct drop in replacement for WE2110 and WE2111 indicators from HBM as well as the Rinstrum 5000.

The C510 has a high-contrast LED display and a 5-button keypad, and has a host of connectivity options, such as USB (Host and Slave), Ethernet, and supports Modbus TCP and legacy ASCII. Functionality can be extended via support for add-on modules that may provide

- Up to 8 digital I/O
- Analogue output including two isolated I/O
- Isolated RS232 or RS485

The indicator can be set up using the C510 Viewer software (for PC) through Ethernet or a USB Slave port.

Visit the [C510 Industrial Weight Controller Page](#) on the Rinstrum website for more information.

rinLIVE Update and Passcode Generation for C500 Packages

The rinLIVE platform has been updated to include the generation of passcodes for C520/C530 for Lua Development (L900-500) and EtherNet/IP (L900-501).

EtherNet/IP

The following browsers are compatible with the latest release of rinLIVE:

- Google Chrome
- Mozilla Firefox
- Safari – iOS
- Microsoft Edge
- Opera
- UC Browser

Note that Microsoft Internet Explorer is not fully supported.

Rinstrum Wishes You a Merry Christmas and a Happy New Year!

Thanks everyone for a great 2018. We were excited to launch and expand our C500 platform and continue to grow our programmable indicators on the R400 series and our commitment to Lua.

Everyone at Rinstrum would like to thank you for your ongoing support and we look forward to an exciting 2019.

Have a wonderful Christmas and New Year!
