

Manual Created for C510 Indicator

The reference manual for the newly introduced C510 industrial weight controller has been released. This comprehensive manual provides all information necessary for the day-to-day operations of the C510.

This manual is available in PDF format on the [C510 Industrial weight controller page](#).

XG3030 added to range of XG Scales

The XG range of scales consists of sturdy economical scales that incorporate an IP65-rated Stainless Steel platform with a tubular frame and an aluminium load cell. These scales are compatible with Rinstrum's R320, X320, and R400 series of indicators.

The XG3030 is the newest addition to the range, which includes the XG3020, the XG4050 and the XG5060 scales. The XG3030 has a 300mm x 300mm (12 in x 12 in) pan with a maximum capacity of 100kg (220lb).

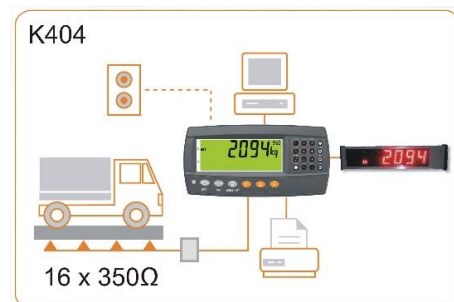

For more information about the XG range of scales, visit the [XG Scales](#) page.

K404 Truck Weighing Firmware Updated

The K404 Truck Weighing firmware for the R400 Series of Indicators has been updated.

This update includes adding support for Matko and Fairbanks remote display traffic lights as well as several other minor changes.

The newest version of the software can be downloaded from the [R420-K404 and R423-K404](#) page.

Reference Manual Created for Wireless Remotes

The reference manual for the newly introduced wireless remotes, which allow common functions (remote ZERO, TARE, PRINT, F-KEY) of Rinstrum's range of indicators to be used remotely, has been released.

The manual includes specifications of 1-button and 4-button versions of the remotes and the communication protocols used by the remotes.

This manual is downloadable from the [Wireless Button Accessories – Clicker](#) page.
